Re: Closure of Exploration File, Summo USA Corporation (Summo), Lisbon Valley Project, E/037/085, San Juan County, Utah

Dear Mr. Gochnour:

Thank you for your letter and the exploration progress reports received July 13, 1998, regarding the status of Summo's Lisbon Valley Copper exploration project. As explained in your letter and exploration reports for 1995 and 1997, some project disturbances and drill holes were reclaimed and the remaining exploration surface disturbances have been absorbed by Summo's Large Mining Operation Notice of Intention, M/037/088. Because of the overlap between the large mining operation notice and the exploration notice the Division will now close the file for this exploration project. Summo will not be required to submit the \$100.00 annual fee for exploration project E/037/085.

If Summo wishes to conduct future mining or exploration outside the currently permitted area, they will need to submit the appropriate notice of intention and receive written approval prior to creating any disturbance.

Thank you for your update on the status of these operations. If I can be of further assistance or if you have questions regarding this letter, please contact me at (801) 538-5267.

Sincerely,

Anthony A. Gallegos
Senior Reclamation Specialist
